Halo: quick test route

About 15-25 minutes | mark Pass / Issue / Skip | bring no personal data

Core: 1-7 / Optional: 8-10 / Report: what happened, what you expected, screenshot

01 Start & navigation — CORE

Open Halo. Visit Home, Notebook, Study, Devices and Settings. Return using Back.

Check: No unexpected wizard, blank page or lost navigation.

02 Intelligence — CORE

Settings > Intelligence: check active provider/model and readiness. If missing, follow setup.

Check: Truthful local/cloud and ready/error status.

03 Home conversation — CORE

Ask: "Explain photosynthesis in two sentences." Then ask a follow-up.

Check: Readable response, retained context, honest processing state.

04 Notebook & Canvas — CORE

Create note "Alpha basil test"; write one sentence. Open Canvas, add content; return.

Check: Saved item can be found again; no unintended loss.

05 Study: read PDF — CORE

Study > new lesson > attach 02 PDF. Ask for total water per pot.

Check: Six waterings x 50 mL = 300 mL; cite the actual file.

06 Study: see PNG — CORE

Attach 01 PNG. Ask which plant was tallest and the height gap from A.

Check: C = 14 cm, A = 6 cm, gap = 8 cm; or a clear vision limitation.

07 Study: learn & review — CORE

Submit a guess, request a hint, create a draft card, accept/review once.

Check: Guidance, feedback, and card persistence; no auto-accept.

08 Voice (if available) — OPT

Speak "What is six times seven?" and test audio playback.

Check: Transcription and voice playback or clear capability limitation.

09 Device (if available) — OPT

Pair/reconnect compatible device; open per-device controls.

Check: True status, sensible recovery; no unsafe automatic action.

10 Activity, privacy, settings — OPT

Check Activity for a recent task; toggle language and reduced motion.

Check: True outcomes, legible RU/LV, no forced animation.

COPY-PASTE PROMPTS: use 05_copy_paste_prompts.txt

If a feature is unavailable, record SKIP with the reason. Never enter real secrets in reports.
